An automotive repair shop has been established at Pinghsiang (106-44, 22-06), about one kilometer north of the Pinghsiang Railway Station, by the Transportation Department of the Central and South China Military Area's Supply and Service Command. This shop was established primarily to assist the Democratic Republic of Vietnam (DRV) in automotive repair work. It consists of three buildings and four parking sheds, and employs 30 workers. The shop is continually active in repairing and reconditioning motor vehicles for the DRV and in training DRV apprentices in the techniques of motor vehicle repair. Twelve apprentices are now receiving instruction.
